New cases drop to 4K; deaths climb to 41,942

BY GERARD NAVAL

AFTER three straight days of over 5,000 new coronavirus disease (COVID-19) cases, the Department of Health reported 4,405 new infections yesterday while 149 more lost their battle against the deadly virus.

In its latest bulletin, the DOH said the total infections in the country now stands at 2,761,307 while the death toll rose to 41,942 for a case fatality rate of 1.52.

The positivity rate in the country stands at 9 percent out of the 47,731 tests conducted last October 23.

Active cases dropped to 57,763 from 60,957 last Sunday, with 76.2

PH COVID-19 CASES
