

Morbidity Week 22 : January 1-June 3, 2017

Epidemiology Bureau  
Public Health Surveillance Division

## Trend in the Philippines

A total of **581** suspect leptospirosis cases were reported nationwide from January 1 to June 3, 2017. This is **91.1%** higher compared to the same time period last year (**304**).

## Geographic Distribution

Most of the cases were from the following regions: **NCR** (17.9%), **REGION VI** (12.7%), **REGION XI** (12.4%), **REGION X** (9.5%) and **REGION VIII** (8.6%).
