Beat COVID-19 Today

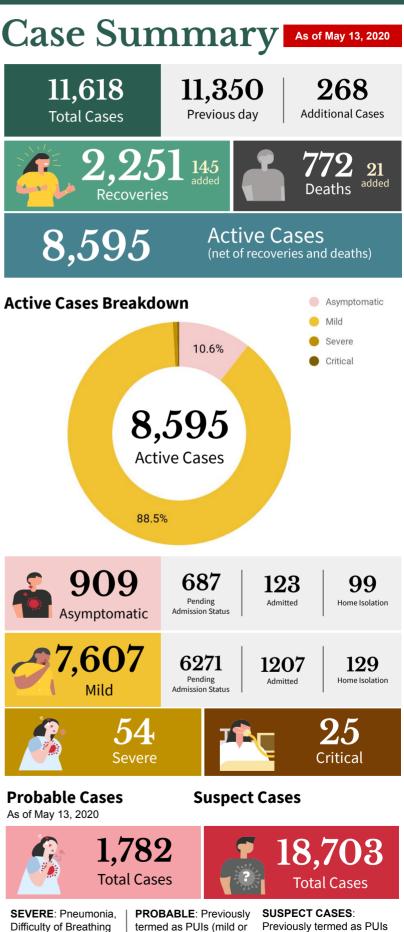

A COVID-19 Philippine Situationer

Issue 17 | May 14, 2020

Highlights and Recent Updates on COVID-19

- DOH recorded **8,595 active cases** as of May 13, with the majority of the patients exhibiting **mild symptoms** (7607, 88.5%).
- A total of **2,099 (19% of all cases)** healthcare workers are affected by COVID-19, with 643 recoveries and 35 deaths
- As of May 13, **127 health facilities** have requested for additional healthcare workers under the DOH's emergency hiring program.
- In 19 hospitals and quarantine facilities managed by BOQ, a total of 1,323 health workers were hired. DOH has redeployed a total of 751 NDP nurses (162 in Luzon and 589 in Visayas and Mindanao) to DOH and LGU hospitals handling COVID-19 cases.
- As of reporting, a total of 30,371 sea-based repatriates have arrived aboard 353 vessels. Of these 8,048 are undergoing quarantine. Meanwhile a total of 8,130 land-based repatriates have arrived in the country, with 7,446 currently undergoing quarantine.
- DOH launched its new COVIDKAYA digital surveillance system in line with its commitment to speed up data collection and lessen encoding errors.
- DOH reiterates to the public the importance of embracing the New Normal setting in their everyday lives. The public needs to keep in mind that their practices and behaviors should lead to improved health. With regard to this, minimum health standards in public transportation are necessary to maintain health and safety. Maintain a safe distance from others, frequently sanitize hands using alcohol-based hand rubs especially after touching public surfaces, and wear face mask at all times.

termed as PUIs (mild or critical) with inconclusive or unofficial test results.

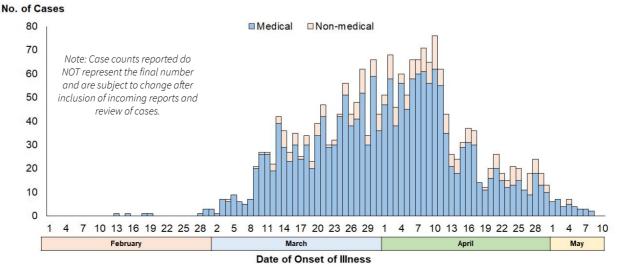

(mild or critical) with no test

done or awaiting test results.

Goal: Shortening Duration of Infectiousness

Confirmed COVID-19 Health Care Workers by Date of Onset of Illness (N=2,165) Philippines, as of May 13, 2020

²

Goal: Shortening Duration of Infectiousness

Age and Sex Distribution of confirmed cases

d

Most of the confirmed cases are **Male** (6,267 or 54%). Most cases are within the 20-39 age group. *Fifteen cases with unspecified age are included in the total.*

Average hospital length of stay for recovered patients is at **15 days.**

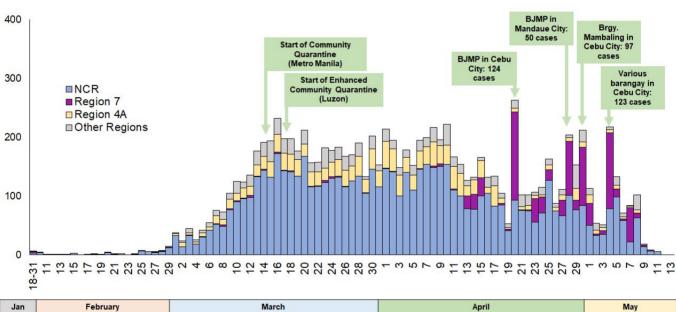

A total of **414 (54%)** of deaths had known comorbidities: top 2 comorbidities are **hypertension (256 or 62%) and diabetes** (**198 or 48%)**.

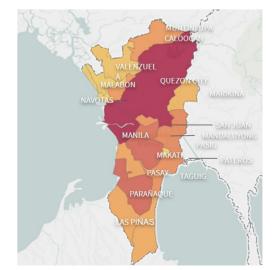

Confirmed COVID-19 Cases by Date of Onset of Illness (N = 11,618)

Philippines, as of May 13, 2020

Note: Case counts reported do NOT represent the final number and are subject to change after inclusion of incoming reports and review of cases.

No. of Cases

Date of Onset of Illness

A total of **7464 (64%)** are confirmed cases from NCR. The proportion of cases in NCR decreased from **72%** since January to April 19, 2020 (start of case detection) to 55% for the period of April 20 to May 13, 2020.

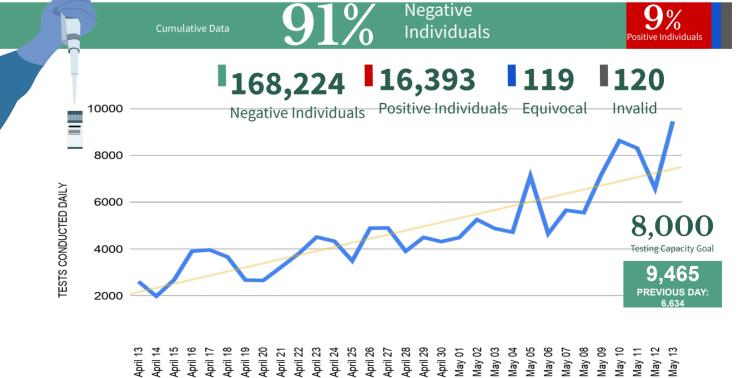

Meanwhile, cases in Region 7 increased in proportion from 2% to 30% for the similar period. On May 4, 2020, 123 (59%) out of the 220 confirmed cases nationwide, were reported from various barangay in Cebu City. **Region 7 recorded a total of 1,736 (15%) confirmed cases, the second highest reported in the country.**

Region 4-A has the third highest cases with a total of 1,329 (11%) confirmed cases of yesterday. Since start of case detection, the proportion of cases in Region 4A decreased from 15% to 5% for the period of April 20 to May 13.

INDIVIDUALS TESTED AS REPORTED BY COVID-19 LABORATORIES

Note: The results of reported laboratory positive individuals are undergoing case information, validation, and processing and may not be reflected on the official case summary of the day. Data for May 13, 2020 with no reports of one laboratory as of 6PM reporting time

STATUS OF LABORATORY LICENSING As of May 13, 2020

LICENSING OF LABORATORIES STATUS

Additional laboratory for May 13

Goal: Increase Resilience, Stop Transmission, Reduce Contact

BEHAVIORAL MESSAGES OF THE DAY

As of May 13, 2020

- As we receive more repatriates, we need to explain the importance of undergoing quarantine. The type of quarantine - whether stringent or mandatory - will depend on what country they came from among other factors.
- While under quarantine, repatriates should practice proper handwashing, cough etiquette, wearing of mask, and maintaining physical distancing from others.
- As the country ushers into the New Normal era, minimum health standards in public transportation are essential to keep everyone healthy and safe. The public should maintain a safe distance from each other, frequently sanitize hands using alcohol-based hand rubs especially after touching public surfaces, and wear face mask at all times.
- Even during the transition to the New Normal era, relevant health concerns should also be prioritized. In light of the Safe Motherhood Week 2020, pregnant women are encouraged to give birth in health care facilities to ensure access to skilled health care professionals and timely referral should the need for additional care arise.

WHEN DO I CONTACT THE BARANGAY HEALTH **EMERGENCY RESPONSE TEAM (BHERT)?** These are the SEVERE SYMPTOMS you need to watch out for:

Difficulty breathing

Drowsiness and/or difficulty waking up

Mental confusion

or changes in

alertness

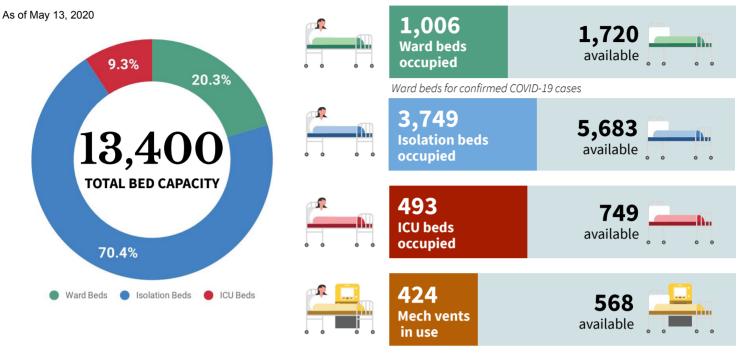

In case you experience any of the following severe symptoms, call your **Barangay Health Emergency Response** Team (BHERT) immediately. They will refer you to the appropriate facility close to your residence.

Goal: Enhance quality, consistency, and affordability of care provision

HOSPITAL BEDS AND MECHANICAL VENTILATORS DEDICATED TO COVID-19 CASES

Data taken from the DOH DataCollect App. Specific for COVID-19 cases.

DEDICATED BEDS FOR COVID-19 CASES IN TTMFs

As of May 13, 2020

Local Isolation and General Treatment Areas for COVID-19 cases (LIGTAS COVID centers) are community-managed facilities dedicated for quarantine or isolation of suspected COVID-19 cases.

TREATMENT

For case management of COVID-19 patients, healthcare providers are advised to adhere to the existing <u>PSMID Guidelines</u>.

FDA UPDATES LIST OF NOTIFIED HAND SANITIZERS

In the interest of the public and health safety, the Food and Drug Administration hereby provides an updated list of notified hand sanitizers under the Center for Cosmetics Regulation and Research, and a list of registered topical antiseptics and antibacterials under the Center for Drug Regulation and Research.

FDA¹ advises the general public to buy only FDA-registered/ notified products from reputable establishments.

PHILHEALTH FOR ALL

The Philippine Health Insurance Corporation (PhilHealth) hereby announces the automatic extension in the filing of protest and appeal before the Protests and Appeals Review Department, motions for reconsideration of denied or reduced claims before the Claims Review Committee, and re-filing of Return-to-Hospital Claims.

All appeals, protest, and claims falling due from 15 March 2020 and until the Enhanced Community Quarantine is lifted shall be given an automatic extension. It may be filed within sixty (60) days from the day the ECQ is lifted.

POLICY IN-FOCUS

To provide guidance to Health Care Providers Network (HCPN) and optimize the model of care for COVID-19 and strengthen the health system response within and across HCPN during the COVID-19 Pandemic, the Department of health issued the <u>Interim</u> <u>Guidelines on Health Care Provider Networks during the COVID-19 Pandemic²</u>. Check the FAQs here.
