Beat COVID-19 Today

A COVID-19 Philippine Situationer

Issue 26 | May 23, 2020

Highlights and Recent Updates on COVID-19

- DOH recorded **9,648 active cases** as of May 22, with majority of the patients exhibiting **mild symptoms** (8,730; 90.5%).
- A total of 2,341 (17% of all cases) healthcare workers have been affected by COVID-19, with 1,106 recoveries and 31 deaths.
- There are now 33 licensed laboratories equipped to perform the RT-PCR test for COVID-19 while eight (8) laboratories are now licensed to perform COVID-19 testing using GeneXpert cartridges.
- As of May 22, a total of 428 repatriate
 vessels have been processed. Of these, 57
 vessels have arrived with a total of 14,335
 repatriates under quarantine directly
 supervised by BOQ for monitoring and PNP
 for security, while 371 vessels with a total of
 20,043 repatriates are under quarantine
 directly supervised by OWWA for monitoring
 and PCG for security. There are currently 130
 vessels being processed.
- DOH clarifies that due to the long and tedious process of validation of the confirmed number of cases, the possibility of a gap between the number of confirmed cases and actual number of positive individuals could happen. Data from the network of licensed laboratories, Regional Epidemiology and Surveillance Units, and other sentinel surveillance sites are being consolidated and validated one-by-one by the Epidemiology Bureau to ensure the accuracy of data.
- DOH reiterates to the public the importance of **adapting to the New Normal setting.** Everyone is encouraged to postpone visits in parks and recreational areas if not necessary. Wearing of face masks, physical distancing, proper handwashing, and cough etiquette should always be practiced.

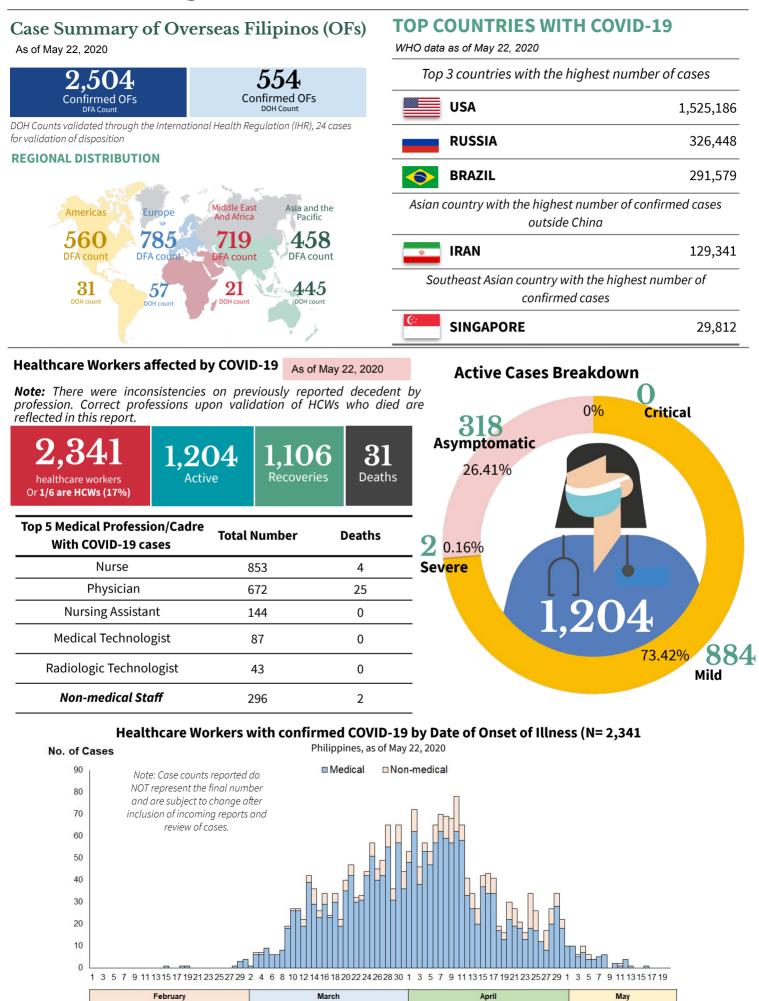

or unofficial test results.

done or awaiting test results.

CRITICAL: Intubated

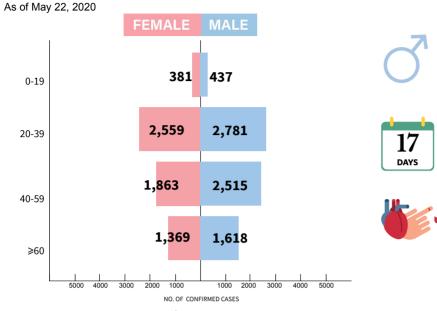

Goal: Shortening Duration of Infectiousness

Date of Onset of Illness

Goal: Shortening Duration of Infectiousness

Age and Sex Distribution of confirmed cases

Most of the confirmed cases are Male (7397 or 54%). Most cases are within the 20-39 age group. Seventy-four cases (28-female; 46-male) with unspecified age are included in the total.

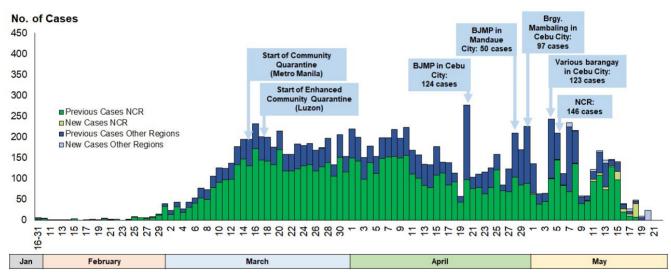

Average hospital length of stay for recovered patients is at **17 days.**

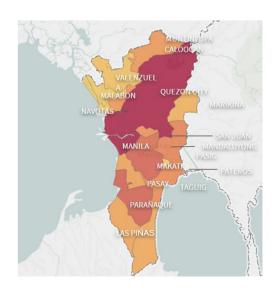

A total of 453 (53%) deaths had known comorbidities: top 2 comorbidities are hypertension (281 or 62%) and diabetes (212 or 47%).

Confirmed COVID-19 Cases by Date of Onset of Illness (N = 13,597)

Philippines, as of May 22, 2020

Note: Case counts reported do NOT represent the final number and are subject to change after inclusion of incoming reports and review of cases.

Date of Onset of Illness

A total of 8,750 (64%) are confirmed cases from NCR. The proportion of cases in NCR decreased from 72% since January (start of case detection) to April 19, 2020 to 59% for the period of April 20 to May 22, 2020. However, on May 5, 2020, 146 cases were reported in NCR—highest since April 11.

Meanwhile, cases in Region 7 increased in proportion from 2% to 24% for the similar period. On May 4, 2020, 123 (51%) out of the 243 confirmed cases nationwide (by date of onset), were reported from various barangay in Cebu City. Region 7 recorded a total of 1,949 (14%) confirmed cases, the second highest reported in the country.

Region 4-A has the third highest cases with a total of 1,450 (11%) confirmed cases of yesterday. Since start of case detection, the proportion of cases in Region 4A decreased from 15% to 6% for the period of April 20 to May 22.

COVID-19 PHILIPPINE SITUATIONER #026 (MAY 23, 2020)

INDIVIDUALS TESTED AS REPORTED BY COVID-19 LABORATORIES As of May 22, 2020 Note: The results of reported laboratory positive individuals are undergoing case information, validation, and processing and may not be reflected on the official case summary of the day.

Goal: Increase Resilience, Stop Transmission, Reduce Contact

BEHAVIORAL MESSAGES OF THE DAY

As of May 22, 2020

- As the country ushers into the New Normal era, minimum health standards are essential to keep everyone healthy and safe. Everyone is encouraged to postpone visits to parks and recreational areas. If it is necessary, physical distancing should be strictly observed and close-contact activities totally be discouraged.
- In this midst of pandemic, everyone is . enjoined to stay healthy both physically and mentally. Taking time to take care of one's mental health and those of others is reiterated.
- Despite the country's focus being on the pandemic, other illnesses, such as tuberculosis, will still have to be prioritized. TB treatment must continue so long as everyone maintains their safety by wearing appropriate PPE.
- During the pandemic, family planning remains essential. Couples are encouraged to avoid unwanted pregnancies, ask local health units

These are the SEVERE SYMPTOMS you need to watch out for:

Difficulty breathing

Shortness of breath

Persistent pain or pressure in the chest

Drowsiness and/or difficulty waking up

Mental confusion

or changes in

alertness

Pale, bluish face and lips

In case you experience any of the following severe symptoms, call your **Barangay Health Emergency Response** Team (BHERT) immediately. They will refer you to the appropriate facility close to your residence.

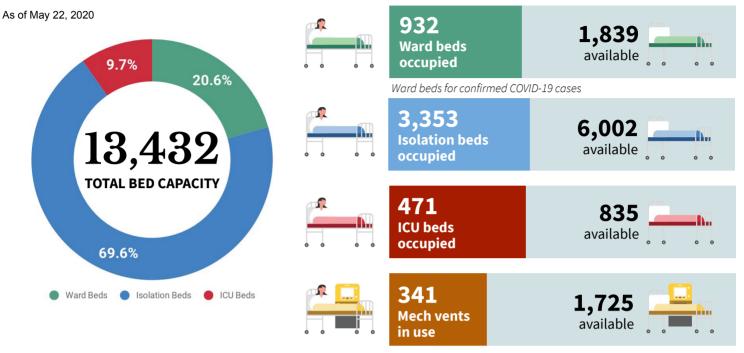

Goal: Enhance quality, consistency, and affordability of care provision

HOSPITAL BEDS AND MECHANICAL VENTILATORS DEDICATED TO COVID-19 CASES

Data taken from the DOH DataCollect App. Specific for COVID-19 cases.

DEDICATED BEDS FOR COVID-19 CASES IN TTMFs

As of May 22, 2020

Local Isolation and General Treatment Areas for COVID-19 cases (LIGTAS COVID centers) are community-managed facilities dedicated to quarantine or isolation of suspected COVID-19 cases.

PERSONAL PROTECTIVE EQUIPMENT AND OTHER HEALTH EQUIPMENT DISTRIBUTED

May 22, 2020

FOOD AND DRUG ADMINISTRATION (FDA)

FDA has issued Administrative Order No. 2020-0017¹ "Revised Guidelines on the Unified Licensing Requirements and Procedures of the Food and Drug Administration Repealing Administrative Order No. 2016-0003" to simplify the requirements and processes for initial, renewal, and variation of License to Operate applications; and to re-engineer and streamline FDA's processes and automate its system in compliance with the provisions of RA 11032 in the maximum prescribed processing time depending on the complexity of the transaction.

POLICY IN-FOCUS

Contact tracing is an important component in containing outbreaks of infectious diseases, and in order to optimize the model of care for COVID-19 and strengthen the health system response, the DOH has issued Department Memorandum No. 2020-0189² entitled "Updated Guidelines on Contact Tracing of Close Contacts of Confirmed Corona Disease (COVID-19) cases" aimed at mitigating the spread of the disease.
