

Beat COVID-19 Today

A COVID-19 Philippine Situationer

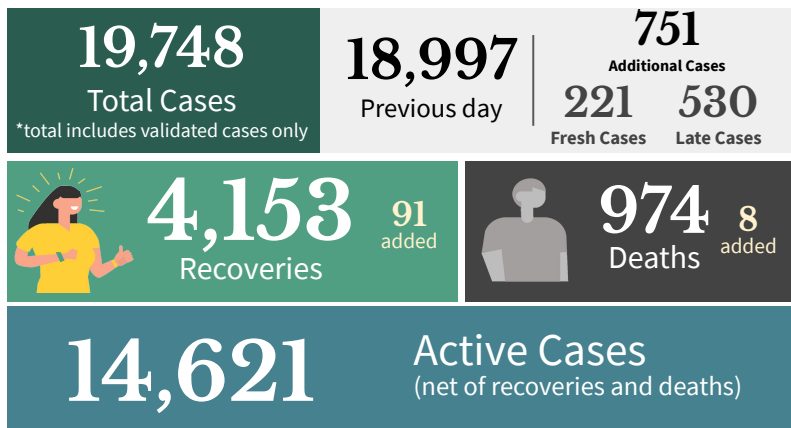

Issue 38 | June 4, 2020

Highlights and Recent Updates on COVID-19

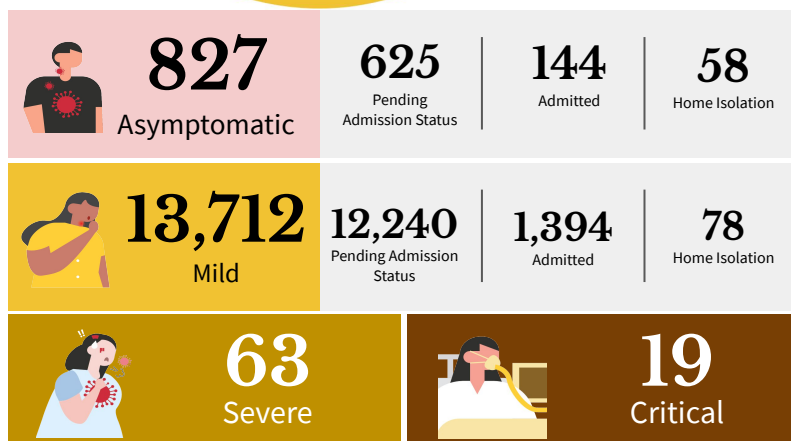

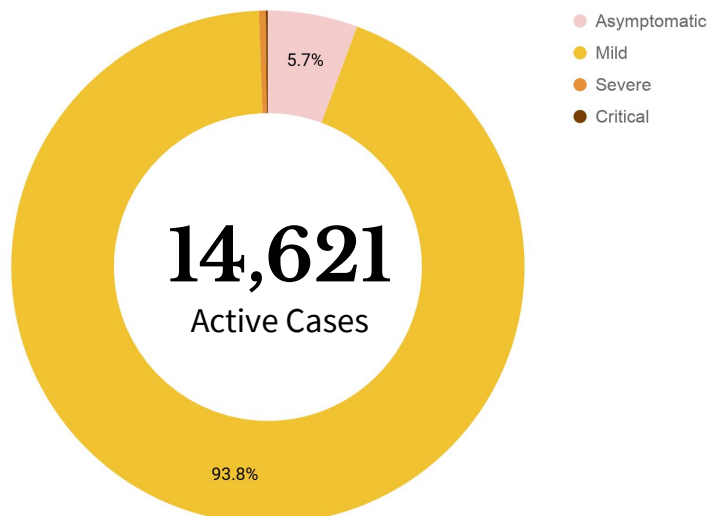

- DOH recorded **14,621 active cases** as of June 3, with the majority of the patients exhibiting **mild symptoms** (13,712; 93.8%).
- A total of **2,703** (14% of all reported cases) are **healthcare workers**, with **1,465 recoveries** and **32 deaths**.
- Most of the confirmed COVID-19 cases are **male** (10,497; 55%). Most of these cases are within the **20-39 age group**.
- Based on the WHO COVID-19 Situation Report No. 135, **USA** is the country with the **highest number of confirmed cases** (1,798,330) in the world.
- As of June 3, a total of **50,167 Returning Overseas Filipinos (ROF)** have arrived (Land-based: 13,149; Sea-based: 37,018). Of these, 43,123 were released from facility quarantine (Land-based: 11,094; Sea-based: 32,029). Among the ROFs, 1,098 were confirmed COVID-19 (Land-based: 799; Sea-based: 299). Among the confirmed COVID-19 ROF, 480 are currently admitted (Land-based: 211; Sea-based: 269); 125 recovered; and 1 death.
- DOH has issued a Department Memorandum No. 2020-0168 entitled “**Interim Guidelines for Dialysis Centers Catering to Suspects, Probable, and Confirmed COVID-19 cases**” to provide guidance to dialysis centers in handling suspect, probable, and confirmed COVID-19 cases.
- DOH underscores the importance of adjusting to the **New Normal setting**. Everyone is encouraged to always practice the minimum health standards. This includes wearing of face masks, physical distancing, proper handwashing, and cough etiquette.

Case Summary

As of June 3, 2020

Active Cases Breakdown

Probable Cases

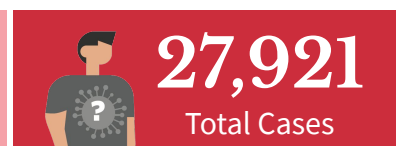

As of June 3, 2020

SEVERE: Pneumonia, Difficulty of Breathing

CRITICAL: Intubated

Suspect Cases

PROBABLE: Previously termed as PUIs (mild or critical) with inconclusive or unofficial test results.

SUSPECT CASES: Previously termed as PUIs (mild or critical) with no test done or awaiting test results.

Goal: Shortening Duration of Infectiousness

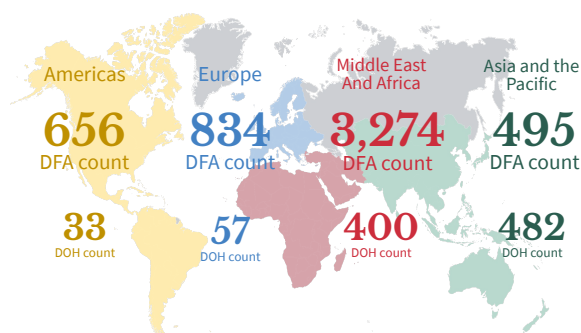

Case Summary of Overseas Filipinos (OFs)

As of June 3, 2020

DOH Counts validated through the International Health Regulation (IHR), 24 cases for validation of disposition

REGIONAL DISTRIBUTION

TOP COUNTRIES WITH COVID-19

WHO data as of June 3, 2020

Top 3 countries with the highest number of cases

USA 1,798,330

 BRAZIL 526,447

 RUSSIA 432,277

Asian country with the highest number of confirmed cases outside China

INDIA 207,615

Southeast Asian country with the highest number of confirmed cases

SINGAPORE 35,836

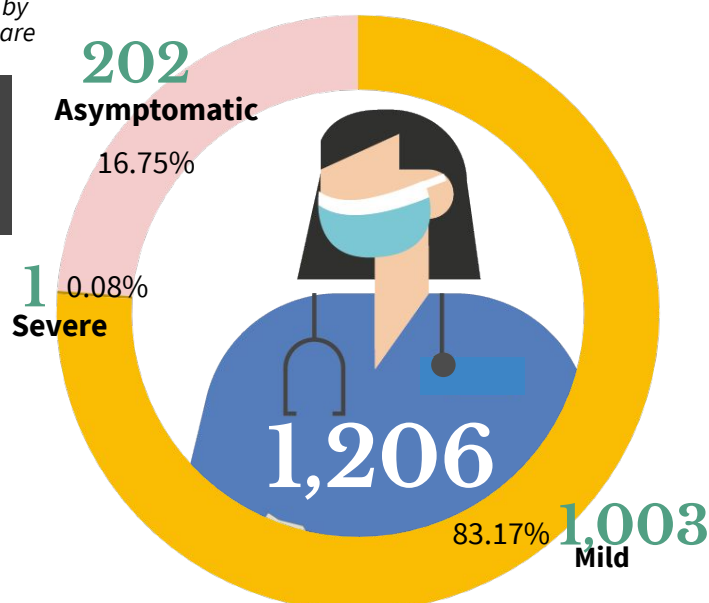

Healthcare Workers affected by COVID-19

As of June 3, 2020

Note: There were inconsistencies on previously reported deaths by profession. Correct professions upon validation of HCWs who died are reflected in this report.

Active Cases Breakdown

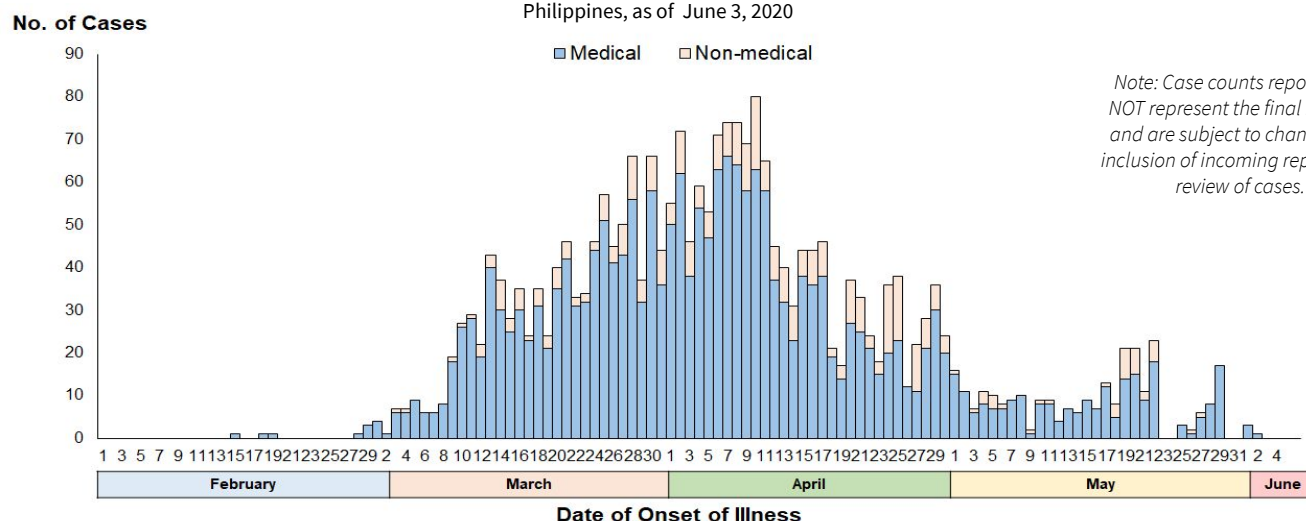

Top 5 Medical Profession/Cadre With COVID-19 cases

Top 5 Medical Profession/Cadre With COVID-19 cases	Total Number	Deaths
Nurse	993	4
Physician	736	26
Nursing Assistant	176	0
Medical Technologist	109	0
Radiologic Technologist	56	0
Non-medical Staff	336	2

Healthcare Workers with confirmed COVID-19 by Date of Onset of Illness (N= 2,703)

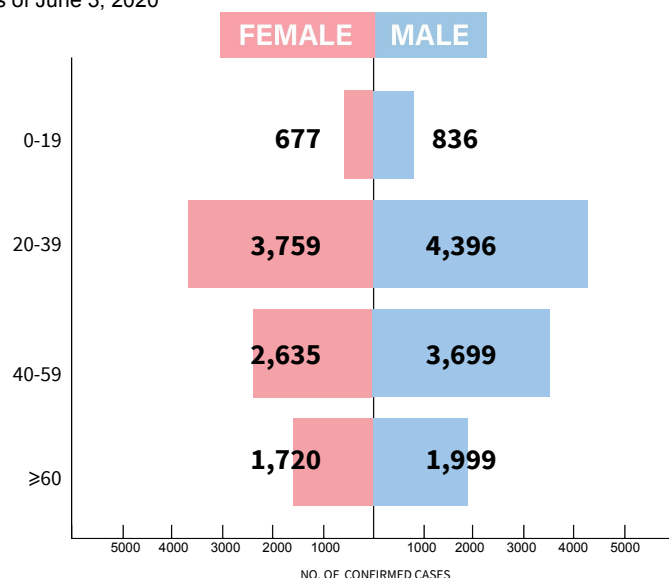

Philippines, as of June 3, 2020

Goal: Shortening Duration of Infectiousness

Age and Sex Distribution of confirmed cases

As of June 3, 2020

Most of the confirmed cases are Male (10,947 or 55%). Most cases are within the 20-39 age group. Twenty-seven cases (10-female; 17-male) with unspecified age are included in the total.

Average hospital length of stay for recovered patients is at **17 days**.

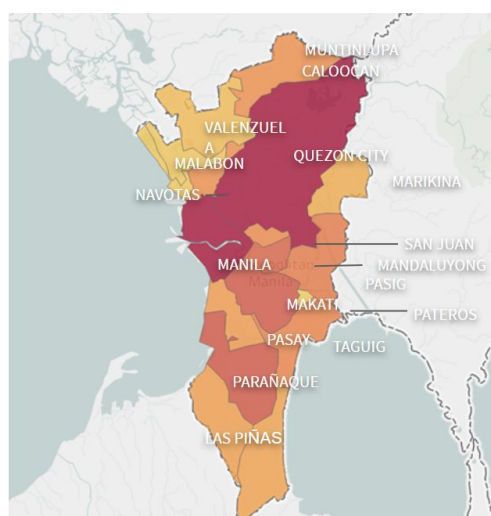

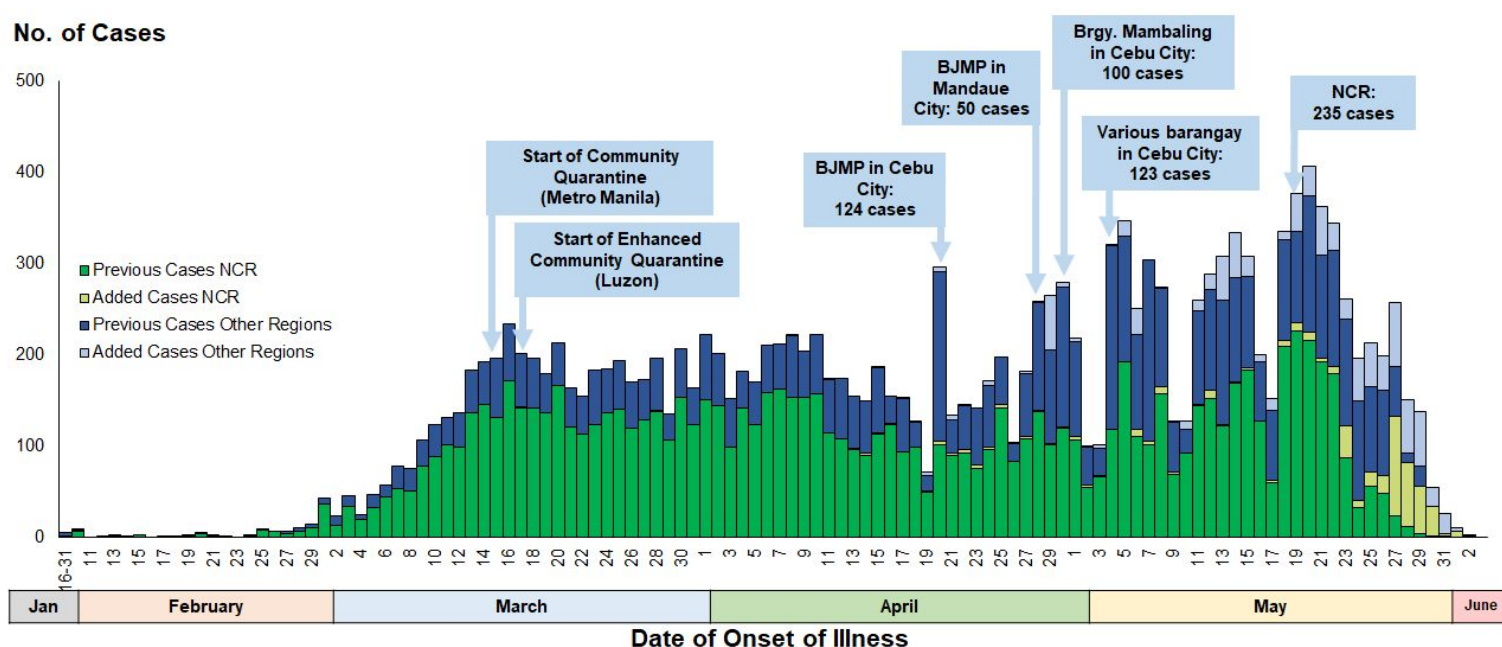

A total of 485 (50%) deaths had known comorbidities: top 2 comorbidities are hypertension (291 or 60%) and diabetes (223 or 46%).

Confirmed COVID-19 Cases by Date of Onset of Illness (N = 19,748)

Philippines, as of June 3, 2020

Note: Case counts reported do NOT represent the final number and are subject to change after inclusion of incoming reports and review of cases.

No. of Cases

A total of 11,429 (58%) are confirmed cases from NCR. The proportion of cases in NCR decreased from 72% since January (start of case detection) to April 19, 2020 to 52% for the period of April 20 to June 3, 2020.

Meanwhile, cases in Region 7 increased in proportion from 2% to 19% for the similar period. On May 4, 2020, 123 (38%) out of the 321 confirmed cases nationwide (by date of onset), were reported from various barangay in Cebu City. Region 7 recorded a total of 2,816 (14%) confirmed cases, the second highest reported in the country.

Region 4-A has the third highest cases with a total of 1,762 (9%) confirmed cases as of yesterday. Since start of case detection to April 19, the proportion of cases in Region 4A decreased from 15% to 5% for the period of April 20 to June 3.

INDIVIDUALS TESTED AS REPORTED BY COVID-19 LABORATORIES

As of June 3, 2020

Note: The results of reported laboratory positive individuals are undergoing case information, validation, and processing and may not be reflected on the official case summary of the day.

Goal: Increase Resilience, Stop Transmission, Reduce Contact

BEHAVIORAL MESSAGES OF THE DAY

As of June 3, 2020

- As the country ushers into the New Normal era, minimum health standards are essential to keep everyone healthy and safe. The government is continuously reminding the public to follow simple precautions that would reduce exposure to COVID-19. Taking care of ourselves is also taking care of our families and communities.
- In [school settings](#), minimum health standards should be observed. These include hand hygiene, proper coughing manners, wearing face masks and other PPEs, physical distancing, and checking for symptoms before entering the school, among others. If possible, studying from home is encouraged.
- The public is also encouraged to maintain a healthy lifestyle to bolster immunity against diseases. Some things we can do include preparing/ordering healthy meals, exercising regularly, and avoiding vices like smoking.
- Everyone is enjoined in appreciating frontline health care workers, as they work tirelessly to battle the disease on the frontlines while the nation stays safe at home. In this regard, support and kind words go a long way to keep up the spirits of our modern day heroes.

MINIMUM HEALTH STANDARDS: FAQs - SCHOOL

Q: Paano mapapanatili ng mga guro, estudyante at iba pang staff ng eskwelehan ang kanilang kalusugang pisikal at mental?

A: Kumain ng masustansya at laging isaisip ang prinsipong Pinggang Pinoy ng DOH. Iwasang kumain ng pagkain na sobrang tamis, maalat, at mataba.

Uminom ng hindi bababa sa 1.5 litrong tubig araw-araw.

HOW DO YOU MAKE 0.05% DISINFECTANT SOLUTION FOR CLEANING HOUSEHOLD ITEMS?

1. Gather all materials needed: disinfectant container, bleach/chlorine, water, personal protective equipment

2. Wear appropriate personal protective equipment (gloves, goggles, apron and boots) when handling and preparing bleach solutions.

3. When preparing the solution, pour the amount of water required into a plastic container then add the bleach (and not the other way around):

4. If you are using household bleach (5% active chlorine), mix:

- 1 ml bleach + 9 ml water, or
- 100 ml bleach + 900 ml water
- For chlorine powder/granules/tablet (60-70%) active chlorine, dissolve: 1 tbs of chlorine + 20L of water

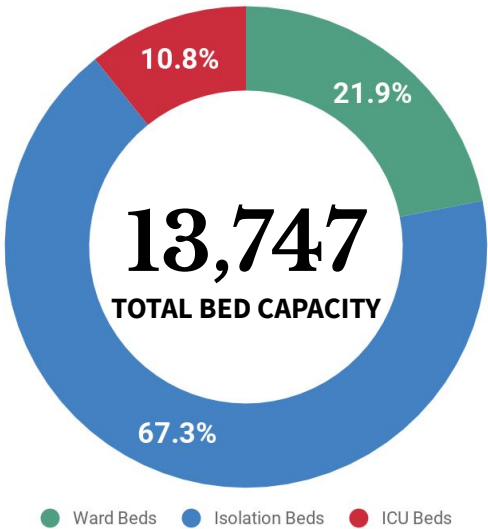

5. Do not forget to label your disinfectant containers and specify chlorine concentration.

Goal: Enhance quality, consistency, and affordability of care provision

TREATMENT

For case management of COVID-19 patients, healthcare providers are advised to adhere to the existing [PSMID Guidelines](#).

FOOD AND DRUG ADMINISTRATION

In the interest of the public health and safety, the Food and Drug Administration (FDA) has updated FDA Advisory No.2020-422¹ or the list of notified hand sanitizers under the Center for Cosmetics Regulation and Research, and a list of registered topical antiseptics and antibacterials under the Center for Drug Regulation and Research.

Check the updated list [here](#)

POLICY IN-FOCUS

In order to ensure the safety of patients requiring hemodialysis, the DOH has issued DM 2020-0168² "Interim Guidelines for Dialysis Centers Catering to Suspects, Probable, and Confirmed COVID-19 cases" to provide guidance to dialysis centers in handling suspect, probable, and confirmed COVID-19 cases.

ERRATA FOR SITUATIONER #037:
Age-Sex Distribution Graph: X-axis has already been corrected to represent the highest number in the graph. Colors for the legend were restored from the original color for consistency purposes.
Dates were changed from June 1, 2020 to June 2, 2020 for Case Summary of OFs and Top Countries with COVID-19. At the time of SitRep 37, the only available data for Budget Tracker is still May 15, hence, the date was retained with the inclusion of the word "As of".

THANK YOU for checking out the 37th issue of Beat-COVID-19 Today! We'd like to know what you think. Send us your feedback at dohfeedback@gmail.com.
