Breakdown of Active Cases

A patient with an RT-PCR confirmed case of COVID-19 without symptoms.

A patient with mild symptoms and stable vital signs. Unless the patient belongs to high-risk subgroups or has comorbidities, they are often not admitted to a treatment facility.

A patient with difficulty breathing, altered mental status, considered high-risk or in need of hospital care.

A patient with impending or ongoing respiratory failure, in need of mechanical ventilation, or with evidence of end-organ damage.

Note. A person who is classified as having a mild case of COVID-19 but is considered high-risk due to age or the presence of comorbidities must be admitted to a treatment facility. Severe or critical cases must be admitted to a treatment facility, regardless of inclusion in high-risk subgroups or presence of comorbidities.

1,316

Probable Cases as of 18 June 2020

Previously termed as PUIs (mild or critical) with inconclusive or unofficial test results.

Top confirmed regions by active cases

NCR	5,811
Region VII: Central Visayas	4,175
Region IV-A: CALABARZON	922
Region III: Central Luzon	324
Region VIII: Eastern Visayas	166

Top regions by newly-announced fresh cases

Region VII	273
NCR	120
Region IV-A	12
Region VIII	7
Region III	5

3,216

Suspect Cases as of 18 June 2020

Previously termed as PUIs (mild or critical) with no test done or awaiting test results.

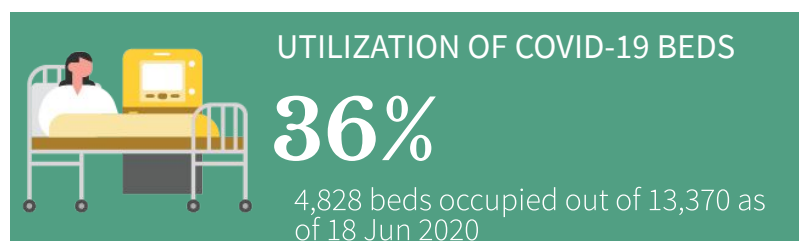

Top confirmed provinces/ cities by active cases

Cebu	3,009
Quezon City	1,402
Manila City	1,020
Cebu Province	710
Caloocan City	497

Top provinces/ cities by newly-announced fresh cases

Cebu City	211
Cebu Province	38
Quezon City	28
Lau-Lapu City (Opon)	12
Makati City	8

Note. Data on healthcare workers affected by COVID-19, testing capacity by laboratory, equipment utilization, and LIGTAS COVID facilities will be included in the full situational report every Sunday.

**34%**

436 ICU beds occupied out of 1,283

37%

1,141 ward beds occupied out of 3,077

36%

3,251 isolation beds occupied out of 9,010

Note. The number of confirmed severe and critical cases may not necessarily correspond to occupancy of ICU beds and mechanical ventilators as suspect and probable cases in severe or critical condition also utilize these resources.

TOP SEA COUNTRIES BY CONFIRMED CASES

	Indonesia	42,762
	Singapore	41,413
	Philippines	27,799
	Malaysia	8,529
	Thailand	3,141
	Vietnam	342
	Brunei	141
	Cambodia	129
	Laos	19

DAILY TESTING STATISTICS AS OF 18 JUNE 2020 (FRIDAY)

Daily Samples tested	Daily Individuals tested	Positive tests	Positivity Rate	Testing backlogs
11,325	10,295	599	5.82%	3,273

COMPLIANCE OF LABS**54/59**

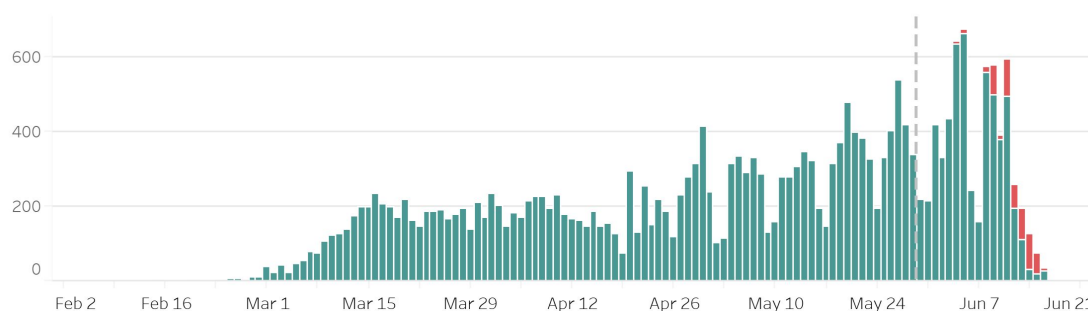

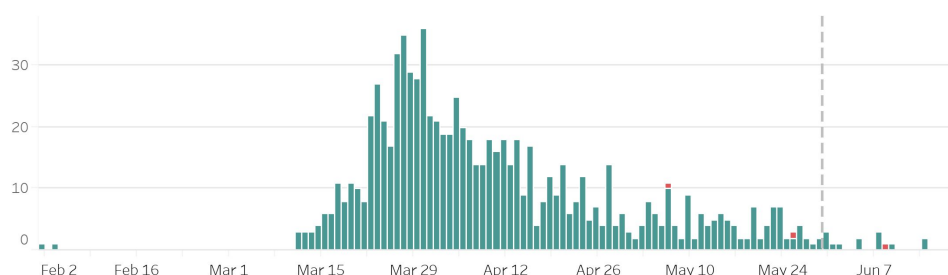

As of 6pm

CUMULATIVE TESTING STATISTICS

Cum. Samples tested	Cum. Individuals tested	Cum. Positive tests	Cum. Positivity Rate
564,568	519,860	30,023	6.93%

Notes.

1. The DOH is continuously validating the number of positive individuals as reported by the laboratories. When necessary, they are deduplicated. As such, the discrepancy with the number of confirmed cases do not necessarily reflect backlogs in case validation.
2. Please visit www.doh.gov.ph/covid19tracker for details regarding the testing output per laboratory.

CONFIRMED CASES BY DATE OF ONSET OF ILLNESS**CONFIRMED DEATHS BY DATE OF DEATH****Notes.**

1. Bars with red colors indicate the actual date of onset or date of death for newly-reported cases.
2. In cases where date of onset of illness is unreported, date of specimen collection was used as proxy. Cases that do not have both are not accounted for in the date of onset histogram. As of this situation report, around 10% of cases have unreported dates of specimen collection and onset of illness.
3. Owing to delays in reporting, case counts after the dashed lines are still incomplete. Hence, we urge caution in interpreting data beyond this date. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

HIGHLIGHTS AND RECENT UPDATES ON COVID-19

As of June 18, 2020

- DOH recorded **19,593 active cases** as of June 18, with the majority of the patients exhibiting **mild symptoms** (19,053; 97.2%) while the number of patients on critical stage remains the same from yesterday's data (19; 0.1%).
- As of June 18, 3,020, 3,042 healthcare workers have been infected by COVID-19, of which 2,115 have recovered, and 33 have died.
- Every third week of June, we celebrate the National Safe Kids Week, giving emphasis on the importance of children's safety. In this week's celebration, the DOH focuses on the prevention of home-related injuries children encounter while quarantined due to the ensuing pandemic. Children are more vulnerable to accidents because of their naturally playful and active nature. Thus, it is important to keep our homes safe and child-friendly.
- Be a **BAYANI** and put the **BAYAN** before the "I". The DOH is in the process of recruiting new heroes for the new normal. Our hospitals still need nurses, medical technologists, contact tracers, and other frontline heroes in this World War C. Applicants can visit bit.ly/HCW Hiring or the [DOH FB Page](#) for additional information.
- DOH has approved a total of **8,553 slots** for hiring in **286** health facilities. DOH has redeployed a total of **1,315 NDP** nurses (212 in Luzon and 1,103 in Visayas and Mindanao) to DOH and LGU hospitals catering COVID-19 cases.

Bakit mahalaga ang **pagsuot ng face mask** at **physical distancing**?

Kung pareho kayong walang mask:

Malaki ang tyansa na makahawa at mahawaan ng iba

Kung ikaw ay may mask:

Bababa ang tyansa na makahawa at mahawaan ng iba

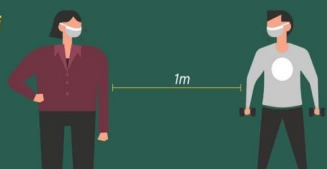

Kung pareho kayong may mask:

Mas bababa pa ang tyansa na makahawa at mahawaan ng iba

Kung pareho kayong may mask at may 1 metrong distansya:

Mas malaki ang tyansa na hindi makakahawa at mahahawaan ng iba

STAY AT HOME!

COVID-19 SURVIVOR KA BA?

Kumusta ka na? Share mo naman!

Kung ikaw ay isang kumpirmadong kaso ng COVID-19, ipagbigay alam ang status mo ngayon sa aming hotline (02) 894-COVID / 1555.
