

Beat COVID-19 Today

A COVID-19 Philippine Situationer

Issue 70 | July 06, 2020

Total Cases as of 5 July 2020

44,254

+2,434 (1,147 Fresh, 1,287 Late)

Active Cases (net of recoveries and deaths)

31,015

+1,938

Recovered

11,942

+489

Died

1,297

+7

Breakdown of Active Cases

A patient with an RT-PCR confirmed case of COVID-19 without symptoms.

A patient with mild symptoms and stable vital signs. Unless the patient belongs to high-risk subgroups or has comorbidities, they are often not admitted to a treatment facility.

A patient with difficulty breathing, altered mental status, considered high-risk or in need of hospital care.

A patient with impending or ongoing respiratory failure, in need of mechanical ventilation, or with evidence of end-organ damage.

Note. A person who is classified as having a mild case of COVID-19 but is considered high-risk due to age or the presence of comorbidities must be admitted to a treatment facility. Severe or critical cases must be admitted to a treatment facility, regardless of inclusion in high-risk subgroups or presence of comorbidities.

1,051

Probable Cases as of 04 July 2020

Previously termed as PUIs (mild or critical) with inconclusive or unofficial test results.

3,066

Suspect Cases as of 04 July 2020

Previously termed as PUIs (mild or critical) with no test done or awaiting test results.

Breakdown of cases per region as of 05 July 2020

Top confirmed regions by active cases

| | |
|-------------------------------|--------|
| NCR | 12,653 |
| Region VII: Central Visayas | 7,584 |
| Region IV-A CALABARZON | 1,582 |
| Region III: Central Luzon | 507 |
| Region VIII - Eastern Visayas | 436 |

Top regions by newly-announced fresh cases

| | |
|------------------------------|-----|
| NCR | 440 |
| Region VII - Central Visayas | 364 |
| Region IV-A - CALABARZON | 44 |
| Region III - Central Luzon | 41 |
| Region V - Bicol Region | 22 |

Top confirmed provinces/ cities by active cases

| | |
|----------------|-------|
| Cebu City | 4,097 |
| Quezon City | 1,567 |
| City of Manila | 1,450 |
| Cebu Province | 1,260 |
| Mandaue City | 654 |

Top provinces/cities by newly-announced fresh cases

| | |
|-----------------------|-----|
| Cebu City | 129 |
| Lapu-Lapu City (Opon) | 101 |
| Mandaue City | 45 |
| Malabon City | 42 |
| Valenzuela City | 35 |

Note. Data on healthcare workers affected by COVID-19, testing capacity by laboratory, equipment utilization, and LIGTAS COVID facilities will be included in the full situational report every Sunday.

CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (NATIONWIDE)

CONFIRMED DEATHS BY DATE OF DEATH (NATIONWIDE)

Notes.

1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
2. In cases where date of onset of illness is unreported, date of specimen collection was used as proxy. Cases that do not have both are not accounted for in the date of onset histogram. As of this situation report, around 10% of cases have unreported dates of specimen collection and onset of illness.
3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (DISAGGREGATED)

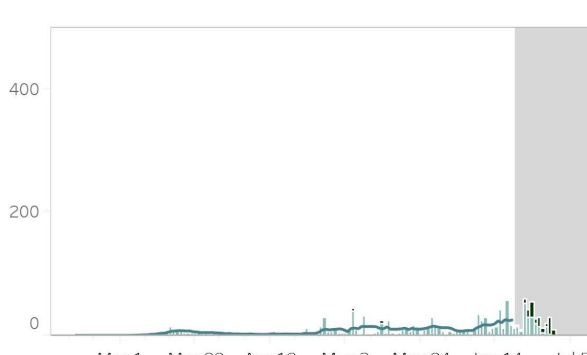

NCR

Luzon

Visayas

Mindanao

Notes.

1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
2. The cases from the “NCR” graph have been separated from cases of the “Luzon” graph.
3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

COVID-19'S CAPACITY TO SPREAD (R_t VALUE)

June 17: 1.09 ± 0.03

No new update.

Nationwide R_t

The time-varying **reproduction number (R_t)** indicates the possible number of people being infected by a sick person, at a specific time with control measures in place.

IMPORTANT NOTE. The reproduction number is measured using symptom onset, we do not include in the interpretation the past 14-16 days given the time between symptoms, health seeking, testing, and reporting. When interpreting the reproduction number keep in mind that it is a **lagging indicator**. Please do not expect this number to change daily.

- The reproduction number (R_t) was around 2 early on in the outbreak. This meant that each confirmed person with COVID was infecting 2 other people.
- Based on the latest data, we are 95 percent confident that $R_t = 1.09 \pm 0.03$, which means each infected individual was infecting an average of 1.05 other persons **around two weeks ago**.
- Lowering this value is made possible through efforts such as social distancing, wearing of PPE, and other means to stop the spread of the virus.**
- The goal is for R_t to be less than 1 and sustain it, which would mean that, on average, an infected person is infecting less than one person, eventually stopping the transmission of COVID-19.

TOP SEA COUNTRIES BY CONFIRMED CASES

| | | |
|--|-------------|--------|
| | Indonesia | 63,749 |
| | Singapore | 44,800 |
| | Philippines | 44,254 |
| | Malaysia | 8,663 |
| | Thailand | 3,190 |
| | Vietnam | 355 |
| | Brunei | 141 |
| | Cambodia | 141 |
| | Laos | 19 |

UTILIZATION OF COVID-19 BEDS

Note. The number of confirmed severe and critical cases may not necessarily correspond to occupancy of ICU beds and mechanical ventilators as suspect and probable cases in severe or critical condition also utilize these resources. Facilities which did not submit a daily utilization report have their most recent carry over to today.

DAILY TESTING STATISTICS AS OF 05 JULY 2020 (SUNDAY)

Daily Testing Output (Nationwide)

Daily Positivity Rate

Report Date

Daily Testing Statistics as of 05 July 2020 (Sunday)

| | |
|---------------------------|--------|
| Samples Tested | 16,180 |
| Individuals Tested | 15,455 |
| Positive Tests | 2,043 |
| Positivity Rate | 13.2% |
| Testing Backlogs | 10,341 |
| Compliance of Labs | 66/70 |

Cumulative Testing Output

| | |
|---------------------------|---------|
| Samples tested | 845,218 |
| Individuals Tested | 783,358 |
| Positive Tests | 57,973 |
| Positivity Rate | 7.4% |

Notes.

- The DOH is continuously validating the number of positive individuals as reported by the laboratories. When necessary, they are deduplicated. As such, the discrepancy with the number of confirmed cases does not necessarily reflect backlogs in case validation.
- Please visit www.doh.gov.ph/covidtracker for details regarding the testing output per laboratory.
- A 6 PM cut-off for the situation report is used, and so the numbers presented here are not yet final. A few laboratories submit data between 6 PM and the time the public data drop is generated.

STATUS OF LABORATORY LICENSING

As of July 5, 2020

| | | | |
|---|---------------------------------------|--|------------------------------|
| 75 | 174 | 150 | 86% |
| NO. OF LICENSED RT-PCR LABORATORIES RT-PCR (55) GENEXPERT(20) | TOTAL NO. OF LABORATORY APPLICATIONS* | TOTAL NO. OF LABORATORIES STAGE 3 AND ABOVE* | % LABS ON STAGE 3 AND ABOVE* |

*Facilities using GeneXpert machines included.

HIGHLIGHTS AND RECENT UPDATES ON COVID-19

As of July 5, 2020

- DOH recorded **31,015 active cases** with the majority of the patients exhibiting **mild symptoms** (28,925; 93.3%) while **31 patients** are in **critical condition** (0.1%).
- There are **3,513** healthcare workers who have been infected by COVID-19, of which 2,643 (75%) have recovered and 34 (1%) have died .
- A total of **1,366 cases** of Filipinos staying overseas who have been tested positive for COVID-19 has been reported to the DOH through the Bureau of International Health Cooperation and the Epidemiology Bureau as the Philippines' Focal Point for International Health Regulations. This represents 15% of the total 8,679 confirmed cases reported by the DFA through the submissions of the Philippine Foreign Service Posts across the world.
- On the other hand, there are 127 Foreign Nationals who have been confirmed of having COVID-19 in the Philippines.
- There are **5,028 Human Resources for Health** hired out of the 8,710 approved slots for emergency hiring in 302 health facilities. Of these, 43.6% are hired in DOH hospitals, 15.2% in Temporary Treatment and Monitoring Facility, 14.5% in COVID-19 diagnostic facility, 10.7% in LGU and other hospitals, 6.7% in COVID-19 referral facility, 3.7% in BOQ managed quarantine facilities and airport units, 3.3% in private health facilities , 0.9% in Mega LIGTAS COVID-19 Centers, 0.8% in Epidemiology and Surveillance Units, and 0.6% for other healthcare facilities.
