

Beat COVID-19 Today

A COVID-19 Philippine Situationer

Issue 72 | July 08, 2020

Total Cases as of 7 July 2020

47,873

+1,540 (993 Fresh, 547 Late)

Active Cases (net of recoveries and deaths)

34,178

+1,333

Recovered

12,386

+201

Died

1,309

+6

Breakdown of Active Cases

A patient with an RT-PCR confirmed case of COVID-19 without symptoms.

A patient with mild symptoms and stable vital signs. Unless the patient belongs to high-risk subgroups or has comorbidities, they are often not admitted to a treatment facility.

A patient with difficulty breathing, altered mental status, considered high-risk or in need of hospital care.

A patient with impending or ongoing respiratory failure, in need of mechanical ventilation, or with evidence of end-organ damage.

Note. A person who is classified as having a mild case of COVID-19 but is considered high-risk due to age or the presence of comorbidities must be admitted to a treatment facility. Severe or critical cases must be admitted to a treatment facility, regardless of inclusion in high-risk subgroups or presence of comorbidities.

679

Probable Cases as of 06 July 2020

Previously termed as PUIs (mild or critical) with inconclusive or unofficial test results.

1,874

Suspect Cases as of 06 July 2020

Previously termed as PUIs (mild or critical) with no test done or awaiting test results.

Breakdown of cases per region

Top confirmed regions by active cases

NCR	13,936
Region VII: Central Visayas	8,033
Region IV-A: CALABARZON	1,749
Region III: Central Luzon	567
Region VIII: Eastern Visayas	461

Top regions by newly-announced fresh cases

NCR	762
Region VII - Central Visayas	174
Region IV-A - CALABARZON	79
Region III - Central Luzon	30
Region IX - Zamboanga Peninsula	23

Top confirmed provinces/ cities by active cases

Cebu City	4,380
Quezon City	1,899
City of Manila	1,719
Cebu Province	1,551
Caloocan City	793

Top provinces/cities by newly-announced fresh cases

Quezon City	60
Manila City	54
Quezon City	37
Caloocan City	23
Cebu Province	21

Note. Data on healthcare workers affected by COVID-19, testing capacity by laboratory, equipment utilization, and LIGTAS COVID facilities will be included in the full situational report every Sunday.

CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (NATIONWIDE)

CONFIRMED DEATHS BY DATE OF DEATH (NATIONWIDE)

Notes.

1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
2. In cases where date of onset of illness is unreported, date of specimen collection was used as proxy. Cases that do not have both are not accounted for in the date of onset histogram. As of this situation report, around 10% of cases have unreported dates of specimen collection and onset of illness.
3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (DISAGGREGATED)

NCR

Rest of Luzon

Visayas

Mindanao

Notes.

1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
2. The cases from the "NCR" graph have been separated from cases of the "Luzon" graph.
3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

COVID-19'S CAPACITY TO SPREAD (R_t VALUE)

June 18: 1.22 ± 0.03

No new update.

Nationwide R_t

The time-varying **reproduction number (R_t)** indicates the possible number of people being infected by a sick person, at a specific time with control measures in place.

IMPORTANT NOTE. The reproduction number is measured using symptom onset, we do not include in the interpretation the past 14-16 days given the time between symptoms, health seeking, testing, and reporting. When interpreting the reproduction number keep in mind that it is a **lagging indicator**. Please do not expect this number to change daily.

- The reproduction number (R_t) was around 2 early on in the outbreak. This meant that each confirmed person with COVID was infecting 2 other people.
- Based on the latest data, we are 95 percent confident that $R_t = 1.22 \pm 0.03$, which means each infected individual was infecting an average of 1.05 other persons **around two weeks ago**.
- Lowering this value is made possible through efforts such as social distancing, wearing of PPE, and other means to stop the spread of the virus.**
- The goal is for R_t to be less than 1 and sustain it, which would mean that, on average, an infected person is infecting less than one person, eventually stopping the transmission of COVID-19.

TOP SEA COUNTRIES BY CONFIRMED CASES

	Indonesia	66,226
	Philippines	47,873
	Singapore	45,140
	Malaysia	8,674
	Thailand	3,195
	Vietnam	369
	Brunei	141
	Cambodia	141
	Laos	19

UTILIZATION OF COVID-19 BEDS

Note. The number of confirmed severe and critical cases may not necessarily correspond to occupancy of ICU beds and mechanical ventilators as suspect and probable cases in severe or critical condition also utilize these resources. Facilities which did not submit a daily utilization report have their most recent carry over to today.

DAILY TESTING STATISTICS AS OF 06 JULY 2020 (TUESDAY)

Daily Testing Output (Nationwide)

Daily Positivity Rate

Daily Testing Statistics

Samples Tested	22,672
Individuals Tested	21,654
Positive Tests	2,016
Positivity Rate	9.3%
Testing Backlogs	14,264
Compliance of Labs	69/72

Cumulative Testing Output

Samples tested	885,882
Individuals Tested	822,098
Positive Tests	61,675
Positivity Rate	7.5%

Notes.

- The DOH is continuously validating the number of positive individuals as reported by the laboratories. When necessary, they are deduplicated. As such, the discrepancy with the number of confirmed cases does not necessarily reflect backlogs in case validation.
- Please visit www.doh.gov.ph/covidtracker for details regarding the testing output per laboratory.
- A 6 PM cut-off for the situation report is used, and so the numbers presented here are not yet final. A few laboratories submit data between 6 PM and the time the public data drop is generated.

STATUS OF LABORATORY LICENSING

As of July 7, 2020

78	176	153	87%
NO. OF LICENSED RT-PCR LABORATORIES RT-PCR (58) GENEXPERT(20)	TOTAL NO. OF LABORATORY APPLICATIONS*	TOTAL NO. OF LABORATORIES STAGE 3 AND ABOVE*	% LABS ON STAGE 3 AND ABOVE*

*Facilities using GeneXpert machines included.

HIGHLIGHTS AND RECENT UPDATES ON COVID-19

As of July 7, 2020

- DOH recorded **34,178 active cases** with the majority of the patients exhibiting **mild symptoms** (32,032; 93.7%) while 34 **patients** are in **critical condition** (0.1%).
- The DOH has deployed 334 post-residency physicians and redeployed 1,318 nurses under NDP in DOH and LGU hospitals handling COVID-19 cases. In addition, there are 7,346 NDP nurses deployed in their respective communities who are involved in contact tracing and specimen collection and 3,471 public health associates who play active roles in contact tracing and surveillance. Other HRH who are in their assigned areas continue to provide essential health services in primary care and are also engaged in COVID-19 response, with focus on prevention of spread and surveillance in communities.

Erratum:

In COVID-19 Philippine Situationer Issue #071, the proportion of severe condition among active cases should have been 0.65%.

THANK YOU for checking out this issue of Beat-COVID-19 Today! We'd like to know what you think. Send us your feedback at dohfeedback@gmail.com.

HETO ANG MGA PARAAN KUNG PAANO MAGING BIDA!

BAWAL WALANG MASK!

Magsuot ng face mask tuwing lalabas ng bahay:

- ☐ Suotin ito at tiyaking natatakpan ang iyong bibig at ilong
- ☐ Pagdating ng bahay, tanggalin ang iyong face mask mula sa likod nang hindi hinahawakan ang harap ng iyong mask
- ☐ Itapon o labhan ito kaagad

I-SANITIZE ANG KAMAY! IWAS HAWAK SA MGA BAGAY!

Hugasang mabuti ang mga kamay gamit ang tubig at sabon sa loob ng 20 segundo o linisin ang mga kamay gamit ang 70% isopropyl o 60% ethyl alcohol/alcogel:

- ☐ Paguwi mo sa bahay
- ☐ Kapag hinawakan mo ang mga common surfaces (Hal. hawakan ng pinto, upuan, pindutan ng elevator, ATM machine, atbp.)
- ☐ Bago at pagkatapos ilagay ang iyong face mask
- ☐ Bago ka kumain
- ☐ Pagkatapos gamitin ang banyo
- ☐ Bago at pagkatapos hawakan ang iyong mukha

Linisin at i-disinfect isang beses kada araw ang mga madalas na hinahawakang surfaces:

- ☐ Hawakan ng pinto
- ☐ Switch ng ilaw
- ☐ Remote control
- ☐ Cellphone
- ☐ Iba pa (isulat dito): _____

DUMISTANSYA NG ISANG METRO!

Ugaliing mag physical distancing kapag nasa labas ng bahay:

- ☐ Panatilihin ang 1 metro o higit pang puwang mula sa iyo at sa ibang tao
- ☐ Limitahan ang pagpunta sa mga masikip na lugar

ALAMIN ANG TAMANG IMPORMASYON!

Magbasa at makinig lamang sa official sources. Isip-isip muna bago mag-share!

- ☐ Basahin at pakinggan ang balita nang maigi
- ☐ I-tsek kung galing sa official website or source (huwag maniwala sa finorward lamang!)
- ☐ Naaayon ba ito sa official advice?

Kung Check ang lahat, ishare na!

TOGETHER, WE CAN #BIDASOLUSYON!
