

# Beat COVID-19 Today

## A COVID-19 Philippine Situationer

Issue 74 | July 10, 2020

Total Cases as of 9 July 2020

# 51,754

+1,395 (1,184 Fresh, 211 Late)

Active Cases (net of recoveries and deaths)

# 37,492

+1,037

Recovered

# 12,944

+354

Died

# 1,318

+4

### Breakdown of Active Cases

A patient with an RT-PCR confirmed case of COVID-19 without symptoms.

A patient with mild symptoms and stable vital signs. Unless the patient belongs to high-risk subgroups or has comorbidities, they are often not admitted to a treatment facility.

A patient with difficulty breathing, altered mental status, considered high-risk or in need of hospital care.

A patient with impending or ongoing respiratory failure, in need of mechanical ventilation, or with evidence of end-organ damage.

**Note.** A person who is classified as having a mild case of COVID-19 but is considered high-risk due to age or the presence of comorbidities must be admitted to a treatment facility. Severe or critical cases must be admitted to a treatment facility, regardless of inclusion in high-risk subgroups or presence of comorbidities.

# 1,391

**Probable Cases as of 07 July 2020**

Previously termed as PUIs (mild or critical) with inconclusive or unofficial test results.

# 3,707

**Suspect Cases as of 07 July 2020**

Previously termed as PUIs (mild or critical) with no test done or awaiting test results.

### Breakdown of cases per region

#### Top confirmed regions by active cases

|                              |        |
|------------------------------|--------|
| NCR                          | 13,697 |
| Region VII: Central Visayas  | 8,486  |
| Region IV-A: CALABARZON      | 1,953  |
| Region III: Central Luzon    | 637    |
| Region VIII: Eastern Visayas | 549    |

#### Top regions by newly-announced fresh cases

|                              |     |
|------------------------------|-----|
| NCR                          | 350 |
| Region VII - Central Visayas | 172 |
| Region IV-A - CALABARZON     | 66  |
| Region V - Bicol Region      | 22  |
| Region X - Northern Mindanao | 17  |

#### Top confirmed provinces/ cities by active cases

|                |       |
|----------------|-------|
| Cebu City      | 4,663 |
| Quezon City    | 2,156 |
| City of Manila | 1,831 |
| Cebu Province  | 1,713 |
| Mandaue City   | 869   |

#### Top provinces/cities by newly-announced fresh cases

|                       |    |
|-----------------------|----|
| Cebu City             | 78 |
| Quezon City           | 57 |
| Cebu Province         | 45 |
| Lapu-Lapu City (Opon) | 37 |
| City of Manila        | 37 |

**Note.** Data on healthcare workers affected by COVID-19, testing capacity by laboratory, equipment utilization, and LIGTAS COVID facilities will be included in the full situational report every Sunday.

CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (NATIONWIDE)

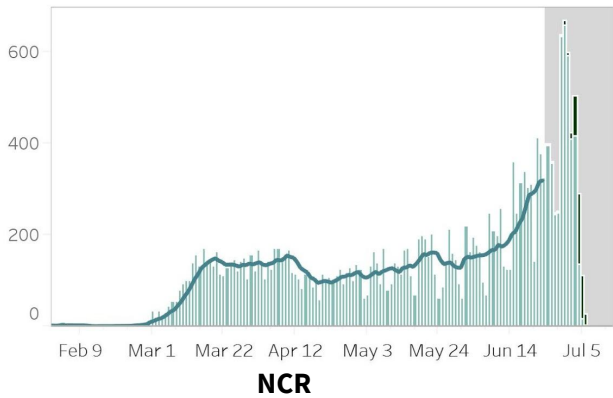

CONFIRMED DEATHS BY DATE OF DEATH (NATIONWIDE)

- Notes.**
- 1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
  - 2. In cases where date of onset of illness is unreported, date of specimen collection was used as proxy. Cases that do not have both are not accounted for in the date of onset histogram. As of this situation report, around 10% of cases have unreported dates of specimen collection and onset of illness.
  - 3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (DISAGGREGATED)

- Notes.**
- 1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
  - 2. The cases from the “NCR” graph have been separated from cases of the “Luzon” graph.
  - 3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

## COVID-19'S CAPACITY TO SPREAD ( $R_t$ VALUE)

June 22:

**1.22 ± 0.03**

**Nationwide  $R_t$**

The time-varying **reproduction number ( $R_t$ )** indicates the possible number of people being infected by a sick person, at a specific time with control measures in place.

**IMPORTANT NOTE.** The reproduction number is measured using symptom onset, we do not include in the interpretation the past 14-16 days given the time between symptoms, health seeking, testing, and reporting. When interpreting the reproduction number keep in mind that it is a **lagging indicator**. Please do not expect this number to change daily.

- The reproduction number ( $R_t$ ) was around 2 early on in the outbreak. This meant that each confirmed person with COVID was infecting 2 other people.
- Based on the latest data, we are 95 percent confident that  $R_t = 1.26 \pm 0.03$ , which means each infected individual was infecting an average of 1.26 other persons **around two weeks ago**.
- **Lowering this value is made possible through efforts such as social distancing, wearing of PPE, and other means to stop the spread of the virus.**
- The goal is for  $R_t$  to be less than 1 and sustain it, which would mean that, on average, an infected person is infecting less than one person, eventually stopping the transmission of COVID-19.

## TOP SEA COUNTRIES BY CONFIRMED CASES

|  |             |        |
|--|-------------|--------|
|  | Indonesia   | 70,736 |
|  | Philippines | 51,754 |
|  | Singapore   | 45,423 |
|  | Malaysia    | 8,683  |
|  | Thailand    | 3,202  |
|  | Vietnam     | 369    |
|  | Brunei      | 141    |
|  | Cambodia    | 141    |
|  | Laos        | 19     |

## UTILIZATION OF COVID-19 BEDS

**Note.** The number of confirmed severe and critical cases may not necessarily correspond to occupancy of ICU beds and mechanical ventilators as suspect and probable cases in severe or critical condition also utilize these resources. Facilities which did not submit a daily utilization report have their most recent carry over to today.

## DAILY TESTING STATISTICS AS OF 09 JULY 2020 (THURSDAY)

### Daily Testing Output (Nationwide)

### Daily Positivity Rate

Report Date

### Daily Testing Statistics as of 09 July 2020 (Thursday)

|                           |        |
|---------------------------|--------|
| <b>Samples Tested</b>     | 23,712 |
| <b>Individuals Tested</b> | 22,475 |
| <b>Positive Tests</b>     | 2,614  |
| <b>Positivity Rate</b>    | 11.6%  |
| <b>Testing Backlogs</b>   | 12,903 |
| <b>Compliance of Labs</b> | 68/74  |

### Cumulative Testing Output

|                           |         |
|---------------------------|---------|
| <b>Samples tested</b>     | 935,763 |
| <b>Individuals Tested</b> | 869,266 |
| <b>Positive Tests</b>     | 67,062  |
| <b>Positivity Rate</b>    | 7.7%    |

### Notes.

1. The DOH is continuously validating the number of positive individuals as reported by the laboratories. When necessary, they are deduplicated. As such, the discrepancy with the number of confirmed cases does not necessarily reflect backlogs in case validation.
2. Please visit [www.doh.gov.ph/covidtracker](http://www.doh.gov.ph/covidtracker) for details regarding the testing output per laboratory.
3. A 6 PM cut-off for the situation report is used, and so the numbers presented here are not yet final. A few laboratories submit data between 6 PM and the time the public data drop is generated.

**STATUS OF LABORATORY LICENSING**

As of July 9, 2020

|   |                                       |  |                              |
|---|---------------------------------------|--|------------------------------|
| <b>83</b>   | <b>178</b>                            | <b>155</b>                                   | <b>87%</b>                   |

\*Facilities using GeneXpert machines included.

**HIGHLIGHTS AND RECENT UPDATES ON COVID-19**

As of July 9, 2020

- DOH recorded **37,492 active cases** with the majority of the patients exhibiting **mild symptoms** (34,654; 92.4%) while **100 patients** are in **critical condition** (0.3%).
- A total of 118,995 Returning Overseas Filipino arrived (Land-based: 52,678; Sea-based: 66,317). Of these, 112,463 were released from facility quarantine (Land-based: 48,194; Sea-based: 64,269). Among the Returning Overseas Filipino, 2,924 were confirmed COVID-19 (Land-based: 1,556; Sea-based: 1,368). Among the confirmed COVID-19 ROF, 718 are currently admitted (Land-based: 459; Sea-based: 259); 2171 recovered; and 1 has died.
- A total of 291 donations to the Department of Health were facilitated by the Donations Team from both foreign and local donors. One hundred ninety-nine (199) transactions, representing 67.94%, have already been completed, of which no donation was delivered today. The team is currently facilitating 68 foreign donations and 24 local donations, while no transaction is on hold.
- The DOH has deployed 334 post-residency physicians and redeployed 1,295 NDP nurses in DOH and LGU hospitals handling COVID-19 cases. In addition, there are 7,349 NDP nurses deployed in their respective communities who are involved in contact tracing and specimen collection (swabbing) and 3,471 public health associates who play active roles in contact tracing and surveillance. Other HRH who are in their assigned areas continue to provide essential health services in primary care and are also engaged in COVID-19 response, with focus on prevention of spread and surveillance in communities.
