

# Beat COVID-19 Today

## A COVID-19 Philippine Situationer

Issue 86 | July 22, 2020

Active Cases as of 21 July 2020  
(net of recoveries and deaths)

45,646  
+1,740

Total Cases as of 21 July 2020

70,764  
+1,951

Recovered

23,281  
+209

Died

1,837  
+2

### Breakdown of Active Cases

A patient with an RT-PCR confirmed case of COVID-19 without symptoms.

A patient with mild symptoms and stable vital signs. Unless the patient belongs to high-risk subgroups or has comorbidities, they are often not admitted to a treatment facility.

A patient with difficulty breathing, altered mental status, considered high-risk or in need of hospital care.

A patient with impending or ongoing respiratory failure, in need of mechanical ventilation, or with evidence of end-organ damage.

**Note.** A person who is classified as having a mild case of COVID-19 but is considered high-risk due to age or the presence of comorbidities must be admitted to a treatment facility. Severe or critical cases must be admitted to a treatment facility, regardless of inclusion in high-risk subgroups or presence of comorbidities.

**958**

**Probable Cases as of 14 July 2020\***

Previously termed as PUIs (mild or critical) with inconclusive or unofficial test results.

**37,951**

**Suspect Cases as of 14 July 2020\***

Previously termed as PUIs (mild or critical) with no test done or awaiting test results.

\*Includes suspect and probable cases in different health facilities, including the LIGTAS COVID facilities, as reported by the Regional Epidemiology and Surveillance Unit.

### Top regions by active cases

NCR	24,244
Region VII: Central Visayas	7,998
Region IV-A: CALABARZON	3,664
Region III: Central Luzon	998
Region VI: Western Visayas	571
Region XI: Davao Region	471
Region X: Northern Mindanao	409
Region IX: Zamboanga Peninsula	324
Region V: Bicol Region	243
BARMM	239

### Top Regions by New Cases

NCR	1,464
Region IV-A: CALABARZON	201
Region VII: Central Visayas	93
Region III: Central Luzon	49
Region VI: Western Visayas	32
Region XI: Davao Region	28
Region I: Ilocos Region	25
CAR	13
Region IX: Zamboanga Peninsula	11
Region V: Bicol Region	8

**Note.** Data on healthcare workers affected by COVID-19, testing capacity by laboratory, equipment utilization, and LIGTAS COVID facilities will be included in the full situational report every Sunday.

## CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (NATIONWIDE)

## CONFIRMED DEATHS BY DATE OF DEATH (NATIONWIDE)

### Notes.

1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
2. In cases where date of onset of illness is unreported, date of specimen collection was used as proxy. Cases that do not have both are not accounted for in the date of onset histogram. As of this situation report, around 10% of cases have unreported dates of specimen collection and onset of illness.
3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

## CONFIRMED CASES BY DATE OF ONSET OF ILLNESS (DISAGGREGATED)

**NCR**

**Rest of Luzon**

**Visayas**

**Mindanao**

### Notes.

1. Bars with dark green colors indicate the actual date of onset or date of death for newly-reported cases.
2. The cases from the "NCR" graph have been separated from cases of the "Luzon" graph.
3. Owing to delays in reporting, case counts within the gray area are still incomplete. Hence, we urge caution in interpreting data beyond this 14-day cutoff. Rest assured that the DOH continues to work tirelessly to ensure the timely reporting of accurate data.

## COVID-19'S CAPACITY TO SPREAD ( $R_t$ VALUE)

June 23:  $1.58 \pm 0.03$ June 24:  $1.59 \pm 0.03$ Nationwide  $R_t$ 

The time-varying **reproduction number ( $R_t$ )** indicates the possible number of people being infected by a sick person, at a specific time with control measures in place.

**IMPORTANT NOTE.** The reproduction number is measured using symptom onset, we do not include in the interpretation the past 14-16 days given the time between symptoms, health seeking, testing, and reporting. When interpreting the reproduction number keep in mind that it is a **lagging indicator**. Please do not expect this number to change daily.

- The reproduction number ( $R_t$ ) was around 2 early on in the outbreak. This meant that each confirmed person with COVID was infecting 2 other people.
- Based on the latest data, we are 95 percent confident that  $R_t = 1.59 \pm 0.03$ , which means each infected individual was infecting an average of 1.59 other persons **around two weeks ago**.
- Lowering this value is made possible through efforts such as social distancing, wearing of PPE, and other means to stop the spread of the virus.**
- The goal is for  $R_t$  to be less than 1 and sustain it, which would mean that, on average, an infected person is infecting less than one person, eventually stopping the transmission of COVID-19.

## TOP SEA COUNTRIES BY CONFIRMED CASES

	Indonesia	89,869
	Philippines	70,764
	Singapore	48,434
	Malaysia	8,815
	Thailand	3,255
	Vietnam	401
	Cambodia	197
	Brunei	141
	Laos	19

## UTILIZATION OF COVID-19 BEDS

**Note.** The number of confirmed severe and critical cases may not necessarily correspond to occupancy of ICU beds and mechanical ventilators as suspect and probable cases in severe or critical condition also utilize these resources. Facilities which did not submit a daily utilization report have their most recent carry over to today.

## DAILY TESTING STATISTICS AS OF 21 JULY 2020 (TUESDAY)

### Daily Testing Output (Nationwide)

### Daily Positivity Rate

### Daily Testing Statistics as of 21 July 2020 (Tuesday)

<b>Samples Tested</b>	23,266
<b>Individuals Tested</b>	21,947
<b>Positive Tests</b>	2,715
<b>Positivity Rate</b>	12.4%
<b>Testing Backlogs</b>	3,404
<b>Compliance of Labs</b>	77/86

### Cumulative Testing Output

<b>Samples tested</b>	1,216,733
<b>Individuals Tested</b>	1,132,840
<b>Positive Tests</b>	97,881
<b>Positivity Rate</b>	8.6%

### Notes.

- The DOH is continuously validating the number of positive individuals as reported by the laboratories. When necessary, they are deduplicated. As such, the discrepancy with the number of confirmed cases does not necessarily reflect backlogs in case validation.
- Please visit [www.doh.gov.ph/covidtracker](http://www.doh.gov.ph/covidtracker) for details regarding the testing output per laboratory.
- A 6 PM cut-off for the situation report is used, and so the numbers presented here are not yet final. A few laboratories submit data between 6 PM and the time the public data drop is generated.

**STATUS OF LABORATORY LICENSING** as of 21 July 2020

## HIGHLIGHTS AND RECENT UPDATES ON COVID-19

As of July 21, 2020

- DOH recorded **45,646 active cases** with the majority of the patients exhibiting **mild symptoms** (41,596; 91.1%) while **198 patients** are in **critical condition** (0.5%).
  - DOH recorded **4,094 health care workers** positive for COVID-19. Of these, **4,094** have recovered (80%), 581 (14%) are mild cases, 204 are asymptomatic (5%), 1 in severe condition, and 35 (1%) have died.
  - A total of **160,067 Returning Overseas Filipinos (ROFs)** have arrived (Land-based: 78,057; Sea-based: 81,615; and 395 transferees from Sabah). Of these, 153,535 were released from quarantine facility (Land-based: 73,573; Sea-based: 79,567; and Sabah: 395). Among the ROFs, 3,880 were confirmed COVID-19 cases (Land-based: 2,037; Sea-based: 1,843).
- Among the confirmed cases, 782 are currently admitted, 2,837 have already recovered, and 2 have died. A total of 249 remains of deceased overseas Filipinos have been repatriated, 63 of which were due to COVID-19.
- There are **368 post-residency physicians** and **1,297 NDP nurses** who have been redeployed in DOH and LGU hospitals handling COVID-19 cases. Additionally, 8,687 NDP nurses were deployed in their respected communities who are involved in contact tracing and specimen collection (swabbing) and 3,893 public health associates who play active roles in contact tracing and surveillance.
  - Meanwhile, a total of 310 donations to the Department of Health were facilitated by the Donations Team from both foreign and local donors. Two hundred fourteen (214) transactions, representing 68.70%, have already been completed. The team is currently facilitating 71 foreign donations and 25 local donations, while no transaction is on hold.

**Healthy Pilipinas** **SABAYANG PATAK KONTRA POLIO**

Simula July 20 hanggang August 2, maaaring magpabakuna ang mga sumusunod:

Edad	Lugar kung saan maaaring magpabakuna
Wala pang 5 taong gulang	Whole of Mindanao and selected areas in Central Luzon (Province of Aurora, Angeles City in Pampanga, Province of Nueva Ecija, San Jose Del Monte in Bulacan)
Wala pang 10 taong gulang	Selected areas in Mindanao (Tawi-tawi, Lambayong in Sultan Kudarat, Sulu, Basilan, Isabela City, and Zamboanga City)
