IV. Background and Rationale:

The DOH-Philippine Blood Center (PBC) is mandated to provide safe, adequate, and accessible blood and blood products to patients in need. The General Services Unit (GSU) vital role is to monitor and provide services to maintain the facility and equipment in good condition to continuously perform its mandate and not to hamper the operations. The PBC is continuously operating since year 2012.

Preventive Maintenance is an essential part of cost-effective operation, but it needs a carefully planned and systematic program of inspection, testing, adjustment, and servicing of Stand by Generator Set. This involves keeping maintenance records so that performance and operating cost can be properly monitored and evaluated. The service provider for Generator Set maintenance shall conduct inspection and Maintenance Service Program, and units to keep it in optimum performance reliable in case power outages occur and prevent spoilage of biological agents, reagents and interruption of critical operations.

VI. Corrective Maintenance

- 1. It is understood that the unit under the agreement is in good operating condition on the date the agreement becomes effective. Service Provider reserves the right to inspect any unit to be placed in the Preventive Maintenance Agreement to determine its operating condition. Any repair necessary to restore the genset unit to good working condition before including in the Preventive Maintenance Agreement will be charged to Philippine Blood Center.
- 2. The scope of the program is limited only to visual/simple adjustment and diagnostic inspections, change oil and replacement of oil and fuel filters as well as the submission of findings, recommendations, and quotations. All other activities such as the disassembly of radiator, rewind of main alternator and exciter, pull out of crankshaft oil seal front/rear, installation of water pump, valve clearance adjustment, AVR, Starter and Charging alternators, rewiring harness and or overhauling of the Genset arising from either the normal wear and tear or through the recommendations of the genset technicians shall be treated separately.
- 3. Equipment for repair that will be included in the Preventive Maintenance Agreement has no standard repair charge. A separate proposal of these repairs will be charge on a time and replacement parts basis. No repair will be started without the approval of Philippine Blood Center to the proposal/quotation of the Service Provider covering purchase, contract, or job order.
- 4. In case that some of the subject genset unit for preventive maintenance is declared unserviceable or for condemnation during the service contract for the Service Provider shall report the problem to Philippine Blood Center and the preventive maintenance on the genset unit will discontinue. A corresponding amount will be deducted proportional to the service being rendered by the service provider.

VII. Proposed Terms of Payment & Expected Output to support payment

- 1. The Contractor shall bill the Agency after completion of the whole project.
- 2. The Contractor shall submit the invoice, service reports and other supporting documents required by Agency for processing of payment.

3. Billing/Payment for extra work rendered and/or supply of parts during emergency or major repairs shall be made separately and shall be done after the End-user's acceptance, subject to usual Audit requirements.
